

LYING FEMINIST OF THE MONTH

Laura Bates

J4MB presents the September 2014 **Lying Feminist of the Month** award to Laura Bates, the world's most prominent whine merchant.¹ Her site invites stories of sexism suffered by women only, which led J4MB to launch the Alternative Sexism Project² which is concerned with sexism suffered by men – which tends to be of a much more serious nature. In December 2013 Laura Bates lied in a recorded presentation in London:

Over two women a week are being killed by their partners or ex-partners.

For years government statistics have been proving this relentless feminist assertion is a lie. In 2013, 76 women were killed by partners or ex-partners, and the number has long been in decline. Feminist bigots such as Laura Bates lie in order to increase women's anxiety, and to shame men as a class, in order to recruit followers to their evil ideology. Herbert Purdy published an insightful critique of her – *Laura Bates, the child-woman, speaks again* – and his piece has a link to her London presentation.³
