⌚ Hold on, this is waiting to be approved by www.spectator.co.uk.

The blame for transgender ideology can be laid fairly and squarely at the doors of radical feminists, whatever TERFs such as Julie Bindel might claim today. It was but a small step from 'gender is a social construct' to 'sex is a social construct'. Indeed, many radical feminists (as mad as drunken fruit bats, one and all) took exactly the latter position, and continue to do so.

Homosexuality is a lifestyle choice, as Matthew Parris testified not long ago. And I agree. Humans are free to chose

Would the moderator who deleted my comments please be so good as to email me (mike@j4mb.org.uk) to explain his / her reasoning? In the meantime I'll post a blog piece on our website <http://j4mb.org.uk> about the deletion, including how the comments (and these) looked on the screen before your censorship. Thanks.
